UNAUDITED RESULTS FOR THE QUARTER ENDED 30 JUNE 2023

Introduction

Dear Shareholders.

We hereby present the unaudited annual results of Tanga Cement Public Limited Company ("Tanga Cement" or the "Company") and its subsidiary (together, the "Group") for the quarter ended 30th June 2023.

Amidst the escalating competitive dynamics prevalent in the industry, the inadequate electricity provisioning, and the scarcity of hard currencies, mainly USD and EUR, in the forex market, the operational performance of the group has exhibited a favourable enhancement compared to the corresponding period in the preceding year's second quarter. The group navigated through marketing and operational impediments stemming from recurrent power disruptions and an atypical season of heavy rainfall, both of which carried the potential to adversely influence the group's financial metrics during the quarter. The subsequent Financial and Operational Overview segment provides a comprehensive elaboration of the group's performance.

We affirm our commitment to all stakeholders through our high-quality cement and clinker, and our contribution towards the sustainable growth and development of Tanzania, a demonstration of our brand – "Strength Within".

The company has deployed the highest standards of health and safety protocols across all its operations and continues to enforce safety at the workplace to protect our employees and contractors.

Macro-economic Overview

The Group's growth outlook continues to be anchored in the growth in cement demand of the Tanzanian construction industry. The forecasted average annual headline inflation rate decreased to 3.6% in the second quarter of 2023 from 4.7% in reported in March 2023.

Economic performance during the year has improved with annual GDP growth of 5.7% in 2023 compared to 5.2% in 2022 (as published by Fitch Solutions). Whilst the increase in GDP was pleasing, the primary drivers for business performance remained the robust infrastructure investment and a strengthening consumer base. Government's actions to support the medium-term monetary policy inflation target of 5% also supported demand for our products.

The Group remains optimistic of the positive impact of infrastructure development plans under the Government's Development Vision 2025 programme and expect the projects to continue gaining momentum in 2023. The Group is confident with the initiatives that the Government has taken to combat the effects of increase in oil prices as well as the impact of the scarcity of major foreign currencies and commits to working together with the Government in growing the economy.

Financial and Operational Overview

The company experienced a marginal decline of 5% in sales revenue, reaching TZS 55 billion in comparison to the TZS 58.3 billion achieved during the second quarter of 2022. Gross profit witnessed a substantial increase of 25% to TZS 14.1 billion, surpassing the TZS 11.2 billion attained in the corresponding period of the previous year. This growth was supported by the gross margin of 25%, which was a significant improvement from the 19% recorded in the first quarter of 2022. This upward trajectory is attributed primarily to the diligent implementation of cost containment strategies in our operations, in line with the company's drive for enhanced efficiency.

EBITDA exhibited a remarkable surge of 63%, reaching TZS 9.3 billion compared to the previous year's TZS 5.7 billion in the second quarter of 2022. This substantial improvement can be attributed to the intentional implementation of cost containment strategies by the management team. Despite challenges such as power outages and fluctuations leading to elevated

maintenance expenses, which management successfully navigated to effectively control both maintenance and administrative costs.

The Group reported a loss before tax of TZS 2.1 billion in Q2, 2023, showcasing an improvement from the prior year's loss before tax of TZS 2.4 billion in 2022. This decline in pre-tax loss can be primarily attributed to the impressive performance highlighted in the aforementioned metrics, specifically the gross profit and EBITDA.

Cash generated from trading activities increased by 438% from TZS 1.7bn recorded in June 2022 to TZS 9bn in June 2023. Net cash flows from operations increased by 558% from TZS 1.4bn recorded in June 2022 to TZS 9bn in June 2023. This increase was attributed to an improvement in the gross margin and EBITDA of 6% and 63% respectively as a result of management's adept execution of cost management and cashflow enhancement strategies.

The Group continues to be committed to its sales, logistics and cost optimisation initiatives as it continually seeks to enhance value for its stakeholders. The Group maintains its positive outlook for 2023 despite the very competitive landscape and the economic impact of global geopolitical unrest. Government initiatives to spur on economic growth through infrastructure development and promotion of local industries is expected to boost local cement output and consumption while curbing the influx of cheap imported. cement.

Dividend

The company did not declare an interim dividend to shareholders in 2023 to remain prudent with available cash resources in order to remain sustainable through the global economic uncertainties and the high fuel prices coupled with pronounced scarcity of major foreign currencies affecting the local economy. The board has decided to continue committing available current cash generated to the operational commitments. The Board will evaluate the financial performance throughout the 2023 financial year when considering any further dividend declarations.

Proposed acquisition by Scancem International DA Shareholders are reminded of the announcement regarding the proposed acquisition by Scancem International DA of 68.33% of the shares in Tanga Cement PLC from Afrisam Mauritius Investment Holdings Limited on 27 October 2021 and the most recent update on the transaction issued by the Company on 24 April 2023.

Conclusion

Tanga Cement remains grateful to its staff for their passion and dedication to the company, and to its customers for their belief in the Simba Cement brand, as the company works to achieve its short- and long-term growth strategy.

With Tanzania remaining a significant player in the East African construction market, cement output is anticipated to increase and Tanga Cement is well positioned to take advantage of the growth opportunities in the regional market.

For and on behalf of the Board

Patrick Rutabanzibwa Chairman of the Board
